ABOUT ME

Hello! I'm Ravindra Gohel, a friendly and approachable person who enjoys helping others. People often seek my advice on studies and career decisions, inspired by my calm demeanor and dedication. I'm always ready to make a positive impact and share what I know to help those around me grow.

PROJECT PORTFOLIO

HRMS (Human Resource Management System)

Developed a MERN stack application to manage employee data, attendance, leave requests, and team. Streamlined HR operations with features for employee management and reporting.
Technologies Used: React.js, Node.js, Express.js, MongoDB

E-Commerce Website

Built an MERN stack e-commerce platform, allowing users to browse products, add them to the cart, and complete purchases. Integrated payment gateway for secure transactions.
Technologies Used: React.js, Node.js, Express.js, MongoDB, Stripe API

AnimeFlix Streaming Website

Created a streaming platform for anime content similar to Netflix, enabling users to watch and manage videos. Designed for seamless content delivery and user account management.
Technologies Used: PHP, MySQL, JavaScript, HTML, CSS

Real-Time Chat Application

Built a real-time chat app using MERN stack where users can send instant messages, create groups, and receive notifications, with live updates using Socket.IO.
Technologies Used: React.js, Node.js, Express.js, Socket.IO, MongoDB

Work Experience

Enjay It Solutions PVT LTD

- Intern – PHP Developer

January 2024 – May 2024

Summary: As a PHP Developer intern, I worked on backend development, assisting in creating dynamic web applications using PHP. I gained hands-on experience in database management, API integration, and optimization of code for better performance. Collaborated with senior developers and learned best practices for efficient web development.
